Objective

Software Engineer with 5+ years of experience in frontend and full-stack web development, specializing in React.js, and .NET-based systems. Experienced in delivering features collaborating with cross-functional teams in agile environments. Strong background in building responsive web applications, API integration, and maintaining scalable enterprise systems. Passionate about continuous learning, clean code, and improving user experience.

Work experience

Northern Light Technology Development
Software Engineer

Dec 2022 - Present

1. Developed and maintained enterprise web applications using C#, .NET Core, React, Typescript, and SQL Server.
2. Designed and optimized SQL queries, stored procedures, and database objects to improve application performance and scalability.
3. Built and enhanced REST APIs and frontend features supporting campaign and location management for enterprise clients.
4. Investigated and resolved production issues by performing root-cause analysis and implementing reliable solutions.
5. Improved application performance by optimizing database operations, reducing redundant API requests, and enhancing React component efficiency.
6. Collaborated with cross-functional teams in an agile environment, participating in sprint planning, code reviews, and deployment.

Quess Philippine Corp Inc.
Software Engineer

June 2022 – Dec 2022

1. Developed new features and enhancements for both frontend and backend systems using React, Angular, and .NET.
2. Built responsive and reusable UI components improving user experience and consistency.
3. Participated in sprint planning, daily stand-ups, and code reviews.
4. Collaborated with QA to identify, troubleshoot, and resolve production issues.

1. Contributed to the redevelopment of a client's existing web application using React.js.
2. Improved and optimized React infrastructure and UI components.
3. Debugged and resolved frontend issues to improve application stability.
4. Worked closely with team members to deliver features on schedule.

Self-Employed
Freelance Web Developer

Dec 2019 — Jan 2021

1. Delivered freelance web development services to various clients, building custom web and mobile interfaces using React.js, Next.js, and Vanilla JavaScript.
2. Designed and developed backend solutions using Node.js, Express, and MongoDB based on client requirements.
3. Managed and maintained WordPress websites for small businesses, including updates and troubleshooting.
4. Handled full project lifecycle independently—from client communication and requirements gathering to development, deployment, and support.

Education

Bachelor of Science in Computer Science
University of Bohol

June 2007 — Mar 2012

Technical Skills

Frontend: React.js, NextJs, Angular, JavaScript (ES6+), Typescript, HTML, CSS
Backend: C#, ASP.NET Core, ASP.NET MVC, NodeJs, Express
Databases: SQL Server, MongoDB, Firebase / Firestore, PostgreSQL
Unit Tests: Jest, React Testing Library, Xunit
Tools & DevOps: Azure DevOps, Git, Agile/Scrum
Other: REST APIs, Responsive Design, Debugging, Code Reviews
